

### **Talks and Tours**

The Jersey Archive is pleased to offer organisations or groups a guided tour of the building. The tour includes the public areas and offers guests a chance to look behind the scenes at the strongrooms and conservation workshop. Tours need to be booked in advance and can be either arranged during the day or in the evening. Groups of up to 25 people are preferable but larger numbers can usually be accommodated by arrangement.

Alternatively we are able to offer a member of staff to come to your organisation or group to talk about our work. Talks can include more general subjects such as the work of the archive or more specific topics such as family or house history.
