Jersey Heritage delivers an uncompromising and diverse range of services to the people of Jersey: we are guardians of a unique portfolio of properties and historic sites; we look after a priceless collection of artefacts and objects that define our past and our present and we share our knowledge to build a greater understanding of what makes us who we are.

We are also a business - a business that operates in a commercial and competitive way. In addition to our revenue grant from the States of Jersey we are committed to achieving new funding targets through our corporate partnerships, sponsorships and membership campaigns.

We recognise that to engage with businesses we must offer a quality product and rewarding experience. This year we have planned an attractive programme of exhibitions and events that we are confident will draw in residents and tourists alike to visit our attractions, stay in our accommodation and become a member of our organisation.

I would like to take this opportunity to thank you for your interest in supporting us. By becoming a corporate member you will be helping to ensure that the fantastic legacy of our forbears is interpreted for, and enjoyed by, generations for many years to come.

I hope you will take full advantage of what we have to offer and that, if you choose to develop a relationship with Jersey Heritage, it is both successful and productive.

Chairman  
Jersey Heritage

Sponsorship activity undertaken:

### Jersey Heritage Informal Education Initiative - 'Your HiStory Starts Here' Scrapbook and Discovery Days

The Scrapbook and Discovery Days provide fun and exciting educational experiences which link children and families with the Jersey Heritage sites. Supporting this sponsorship has meant that all nursery and primary school children in the Island have been given their own personal scrapbook to use at Discovery Days.

### Summer at Hamptonne - Enabling Hamptonne Country Life Museum to open to the public for 100 days this summer

This ten week sponsorship has enabled Hamptonne to open for one of its busiest periods; giving children and families the opportunity to enjoy this beautiful site during the end of summer term time, for school visits, and the summer holidays.

### Why did you get involved?

We've been a Jersey Heritage corporate member for a number of years and supported our involvement by providing employees and their families with access to Heritage sites. More recently we've been looking at ways in which we can increase this support for the mutual benefit of the local community and our employees. Supporting the introduction of the Discovery Days, through sponsoring the Scrapbook initiative and Summer at Hamptonne, has helped us to achieve this.

Education and sharing knowledge are at the heart of everything we do and are central to both initiatives we're supporting. We hope that, with our financial and staff support, these initiatives will be a success with children and create a lasting legacy for Jersey Heritage.

Jonathan Rigby, Managing Partner, Mourant Ozannes says:

"We are delighted to support these initiatives by Jersey Heritage. Involving children and families in the Island's history with the fabulous Discovery Days and the properties run by Jersey Heritage, is such a wonderful idea. We are very fortunate in Jersey to have an organisation such as Jersey Heritage doing so much to bring the Island's rich heritage to life and to safeguard it for future generations."

## Corporate Adoption

New for this year, we are inviting corporate partners to ‘adopt’ items within the Jersey Heritage collection. This will provide ongoing opportunities for staff and corporate associates to directly impact the protection of a significant item and feel a sense of ownership by getting involved.

To recognise this support, the item(s) in question will carry a sign with the corporate supporter’s logo on it. When the item is not on display, the company name will appear on the Jersey Heritage catalogue. Jersey Heritage welcomes corporate engagement for any adoption taken up and will support that partner’s efforts to maximise coverage for their involvement.

Adoption costs £3,000 and lasts for one year from the date of adoption. Corporate partners will be given first refusal to renew this adoption support on expiry. If you want to adopt for a longer period of time the cost can be negotiated.

## Adopt Artwork

Jersey has a long maritime history which is reflected in the strong tradition of marine painting.

These three paintings reflect different aspects of our maritime heritage from Captain Philip Hamon, the Harbour Master at St Aubin, in the first half of the 19th century to Berteau’s Shrimping Girl and the portrait of T B Davis, owner of the yacht Westward and well known Island philanthropist of the 20th century.

The three paintings need conservation work to ensure that they can remain on display as an important part of the Maritime Museum’s story. Your adoption funds will directly contribute to this conservation work.

All these items are currently on display at the Maritime Museum and will be covered by your adoption.

## Adopt Textiles

This wedding dress was made by Madam Henry of New Street, maker of Robes and Confections. The dress was worn by Agnes Lucy M Hughes (daughter of Mary Ann le Bas and Frederick Hughes of St Helier) on her wedding to Earl Winfield Spencer on December 10th 1887 in Jersey.

The dress is in need of some repair and will be sent off-Island to a specialist textile curator in the UK. Your adoption of this item (currently not on display) will mean the dress can be exhibited as part of future exhibitions and this important collection item will be kept for future generations to enjoy.

## Adopt Don's Letter Books

General Don is one of the key figures in Jersey's history. Don was appointed Lieutenant Governor of Jersey in 1806 during the Napoleonic Wars.

Don showed extraordinary vigour and ability in this position. He established a signalling system to give warning if the French fleet left St Malo. Don also reorganized the Militia, building Drill Sheds in every parish and ensured that every bay and possible landing place was fortified. During his command Fort Regent was completed.

Don's best work, however, was in road building. When he arrived the roads were all very narrow, knee-deep in mud in winter, and completely unsuitable for moving troops and artillery with speed. To make new roads was no easy task; they were costly and interfered with private property. During his command Don created a network of eighteen roads, with connecting crossroads, which are still in use today. Some of them still bear his name, for example Don Street, Don Road, Don Bridge and Don's Farm.

He also concerned himself with the cultivation of food, concerned about shortages in wartime. He brought land under cultivation himself, including a portion around Quennevais, which had previously been thought barren. In 1814 Don left Jersey to become Lieutenant Governor of Gibraltar, He remained there until his death in 1832.

General Don's Letter Books detailing his involvement in all aspects of Jersey Life are stored at the Jersey Archive and are in need of conservation work before they can be made available for researchers to study. Your annual adoption includes two unique letter books which give a fascinating insight into the history and development of our Island.

## Adopt Archives

These shipping registers are the unique written evidence that shipping, ships and shipbuilders are an integral part of Jersey's cultural identity.

The sea provided Islanders with food, employment and opportunities for trade and our ancestor's relationship with the sea continues to influence our lives to the present day. The registers also show the global influences that Jersey vessels and sailors had during the 19th century with ships and islanders sailing to all corners of the globe.

The registers record the name and number of each ship registered in Jersey and include details of the shipbuilder, dimensions, tonnage, rigging, ownership, as well as mortgages and transfers of ownership. If a ship was sunk or decommissioned, the registers will often have a letter from the owner or captain of the ship, explaining the circumstances of the disaster.

The registers date from 1803 to the present day. Eight registers are included in your annual adoption. The registers are currently unavailable for the public to view due to their fragile condition. Your adoption of these unique items will mean that they can be conserved and consulted by future generations of researchers.

## Adopt Lillie

Perhaps the best known portrait in the Jersey Heritage collection is A Jersey Lily - a portrait of Jersey-born Lillie Langtry by Sir John Everett Millais (1829-1896), whose family came from Jersey. Crowds thronged to see the portrait when it was exhibited at the Royal Academy in 1878.

The portrait was painted at the height of Lillie's fame, by the most fashionable artist of the day, dressed in the plain black dress that was her trademark. Both sitter and artist were part of the 'in-crowd' of fashionable society of poets and artists. Despite both of them having Jersey backgrounds, the Lily in the painting is actually a Guernsey Lily, not a Jersey Lily.

Sir John Everett Millais was one of the greatest Victorian success stories. His family had lived in Jersey since before 1331. His father was an officer in the Jersey Militia. For a short time, they lived in Southampton, where Millais was born. When Millais was four years old they returned to Jersey. Millais showed a remarkable artistic ability and in 1840 became the youngest ever student at the Royal Academy at the age of 11. His first picture to be accepted for the Royal Academy's exhibition was in 1846, when he was still only 16. He joined with William Holman Hunt, Dante Gabriel Rossetti and four other friends to form the Pre-Raphaelite Brotherhood.

The Lillie portrait is on display at the Jersey Museum and your annual adoption of Lillie will help ensure that Jersey Heritage can continue to provide access to this unique image.

# Corporate Volunteering Case Study

Name of company

**RBS International**

Volunteer activity undertaken

**Mont Orgueil**

Volunteering activities included clearing undergrowth within the Castle grounds in preparation for Channel 4's Time Team visit in May 2010, followed by pre-season tidy of grounds ahead of the 2011 season. This volunteering involved cutting back all the overgrowth and hauling it up a steep hill to be added to a bonfire at the back of the Castle.

### Why did you get involved?

At RBS International we are always keen to roll our sleeves up and support local community projects. As a bank we have worked with Jersey Heritage on a number of occasions and have always enjoyed the day. The activities prove to be great team building opportunities, as well as a chance to do something positive for our Island's unique heritage.

An RBS International volunteer says:

"I know I speak for the whole team when I say that we really enjoyed yesterday.

As a small team, we don't often get a chance to spend time together so it was fantastic from that point of view, just being able to work together in a different way, and having a few laughs along the way. What better way to do this than up a steep hill in our wellies and up to our eyes in smoke from the fire, but with the best view on the island!

We all felt a real sense of achievement at the end of the day and it's great to feel that our hard work will help to reveal some of the Castle's secrets following the Time Team TV show next month. We hope it brings along more visitors to what is a truly spectacular Castle!"
