

Making a treasure map

How to make a treasure map.

- Make a pot of strong tea and leave it to cool.
- Then brush the cold tea all over an A4 piece of paper with a paint brush.
- Let it dry and then add a few drops more to make some areas darker for greater effect.
- Once it is dry, draw your treasure map and then scrunch it into a small ball so that it has creases all over it.

Ideas of what to include:

Skull and
crossed bones

Palm tree

Compass

Pirate ship

X marks the
spot
